WHAT PEOPLE SAY ABOUT US

"MySoccerLeague.com is the best. They offer everything to help make your league work the way it should. Since I do scheduling of games and scheduling of practices, I especially appreciate their flexible and powerful scheduling engine and how we can schedule practices in MySoccerLeague.com."

Steven Morrison - General Manager
Albany-Berkeley Soccer Club

"One thing I like the most about MySoccerLeague.com is the responsiveness of the staff. We don't have issues often, but when we do, the MSL staff is all over it and takes care of the matter very quickly and very professionally."

"However, the real service for me is that it provides a single destination for all my league related activities. Being very active in Jack London YSL I am a referee, coach, league administrator, and playing league administrator. I use MSL in all these capacities and MSL's ability to work them together gives me a complete view into what's going on. I've even run a tournament through MSL (scheduling games, fields, and referees) and it was again the same seamless experience."

"Over the years..."

Procedure for creating rosters and game cards for JLYSL matches

STEP 9

1. A .pdf of your game card will appear. Print the card and bring with you to the game
2. It is a good idea for you to bring along a pair of scissors and tape in your coaching bag so that just in case, you can cut and tape your team info - or - the opponents team info to ONE piece of paper, which is helpful to referees. Ideally both teams are prepared and the card looks like the image below – this won't always be the case, however.
